Rock table (see page 50)

## Statement of line

At the end of each section you'll find a statement of line containing product specifications to help you choose the right product

**Children's chair**  
1RYCD  
29.5"H | 16.5"W | 20.6"D  
Seat height: 14.5"  
17.5 lbs. (standard)  
67.5 lbs. (weighted)

## Quick key

Throughout this catalog you'll find these symbols to help guide you:

-  anti-vandal
-  water-resistant
-  weighted
-  stackable
-  reinforced
-  suitable for indoor & outdoor use
-  flame retardant
-  wheelchair accessible
-  floor/wall anchorable

# about us

Our furniture is designed to enhance challenging environments by rethinking the way furniture is designed

Our aim is to use human-centered design to help achieve our customers' strategy and vision of creating safer environments.

**Distribution Center**  
(Chicago, IL)

**Head Office & Showroom**  
(Clawson, MI)

For the past 40 years we have been helping to transform challenging environments by designing and manufacturing furniture with style and quality, as well as total commitment to safety and durability.

# understanding purpose

We create built-in solutions to common challenges faced in behavioral health and correctional facilities

## Damage & weaponization

The one-piece design philosophy of our Ryno® range means the products cannot be disassembled to be used as weapons and they provide no opportunities for concealment of contraband (unlike conventional furniture).

Ryno products can also be heavily weighted to further increase levels of safety.

## Concealment & reinforcement

Our innovative Magna range is designed with the option of zero-depth seams to deter hiding of medication or banned items.

It is also available in different levels of reinforcement as we appreciate that no two needs are the same.

## Obscuring vision panels

The tri-fold design of our anti-vandal Scorpio mattress means that it 'collapses' when it is stood on its end and its size prevents it from being wedged in door frames too, making it impossible for users to block vision panels.

# fabric options

We provide an extensive range of fabrics, ensuring that you will find the right upholstery for your furniture.

## Safe & Stylish

We have hundreds of fabrics to choose from, all are water-resistant and flame retardant, as well as being made to withstand challenging and repetitive behavior.

# what you need to know

Whether you want to create a serene environment inspired by nature or a bright, vibrant setting, color can be a useful tool for establishing the atmosphere you want.

## Vinyl

Hard wearing and water-resistant, leather-effect vinyls can be wiped clean which makes them a hygienic and practical option for healthcare environments.

- ✓ Fire-resistant to CAL TB 116 & 117, NFPA 260 USA
- ✓ A rating of over 100,000 rubs on the Martindale abrasion test (recommended for challenging environments)
- ✓ Stain resistant and anti microbial

## Water resistant fabrics

A durable option which combines the comfort of soft fabric with practical water-resistant properties.

- ✓ Fire-resistant to CAL TB 116 & 117, NFPA 260 USA
- ✓ Waterproof to at least 2.5 meters
- ✓ Stain resistant and anti microbial

# safety & sustainability

Our furniture is designed to enhance challenging environments by rethinking the way furniture is designed

## Flame-retardance

Flame retardant to contract level, all of our upholstery and covers meet CAL TB 116 & 177, NFPA 260 USA.

## Recyclable

All Ryno products are 100% recyclable. They can be ground back into powder and used to make another piece of Ryno furniture.

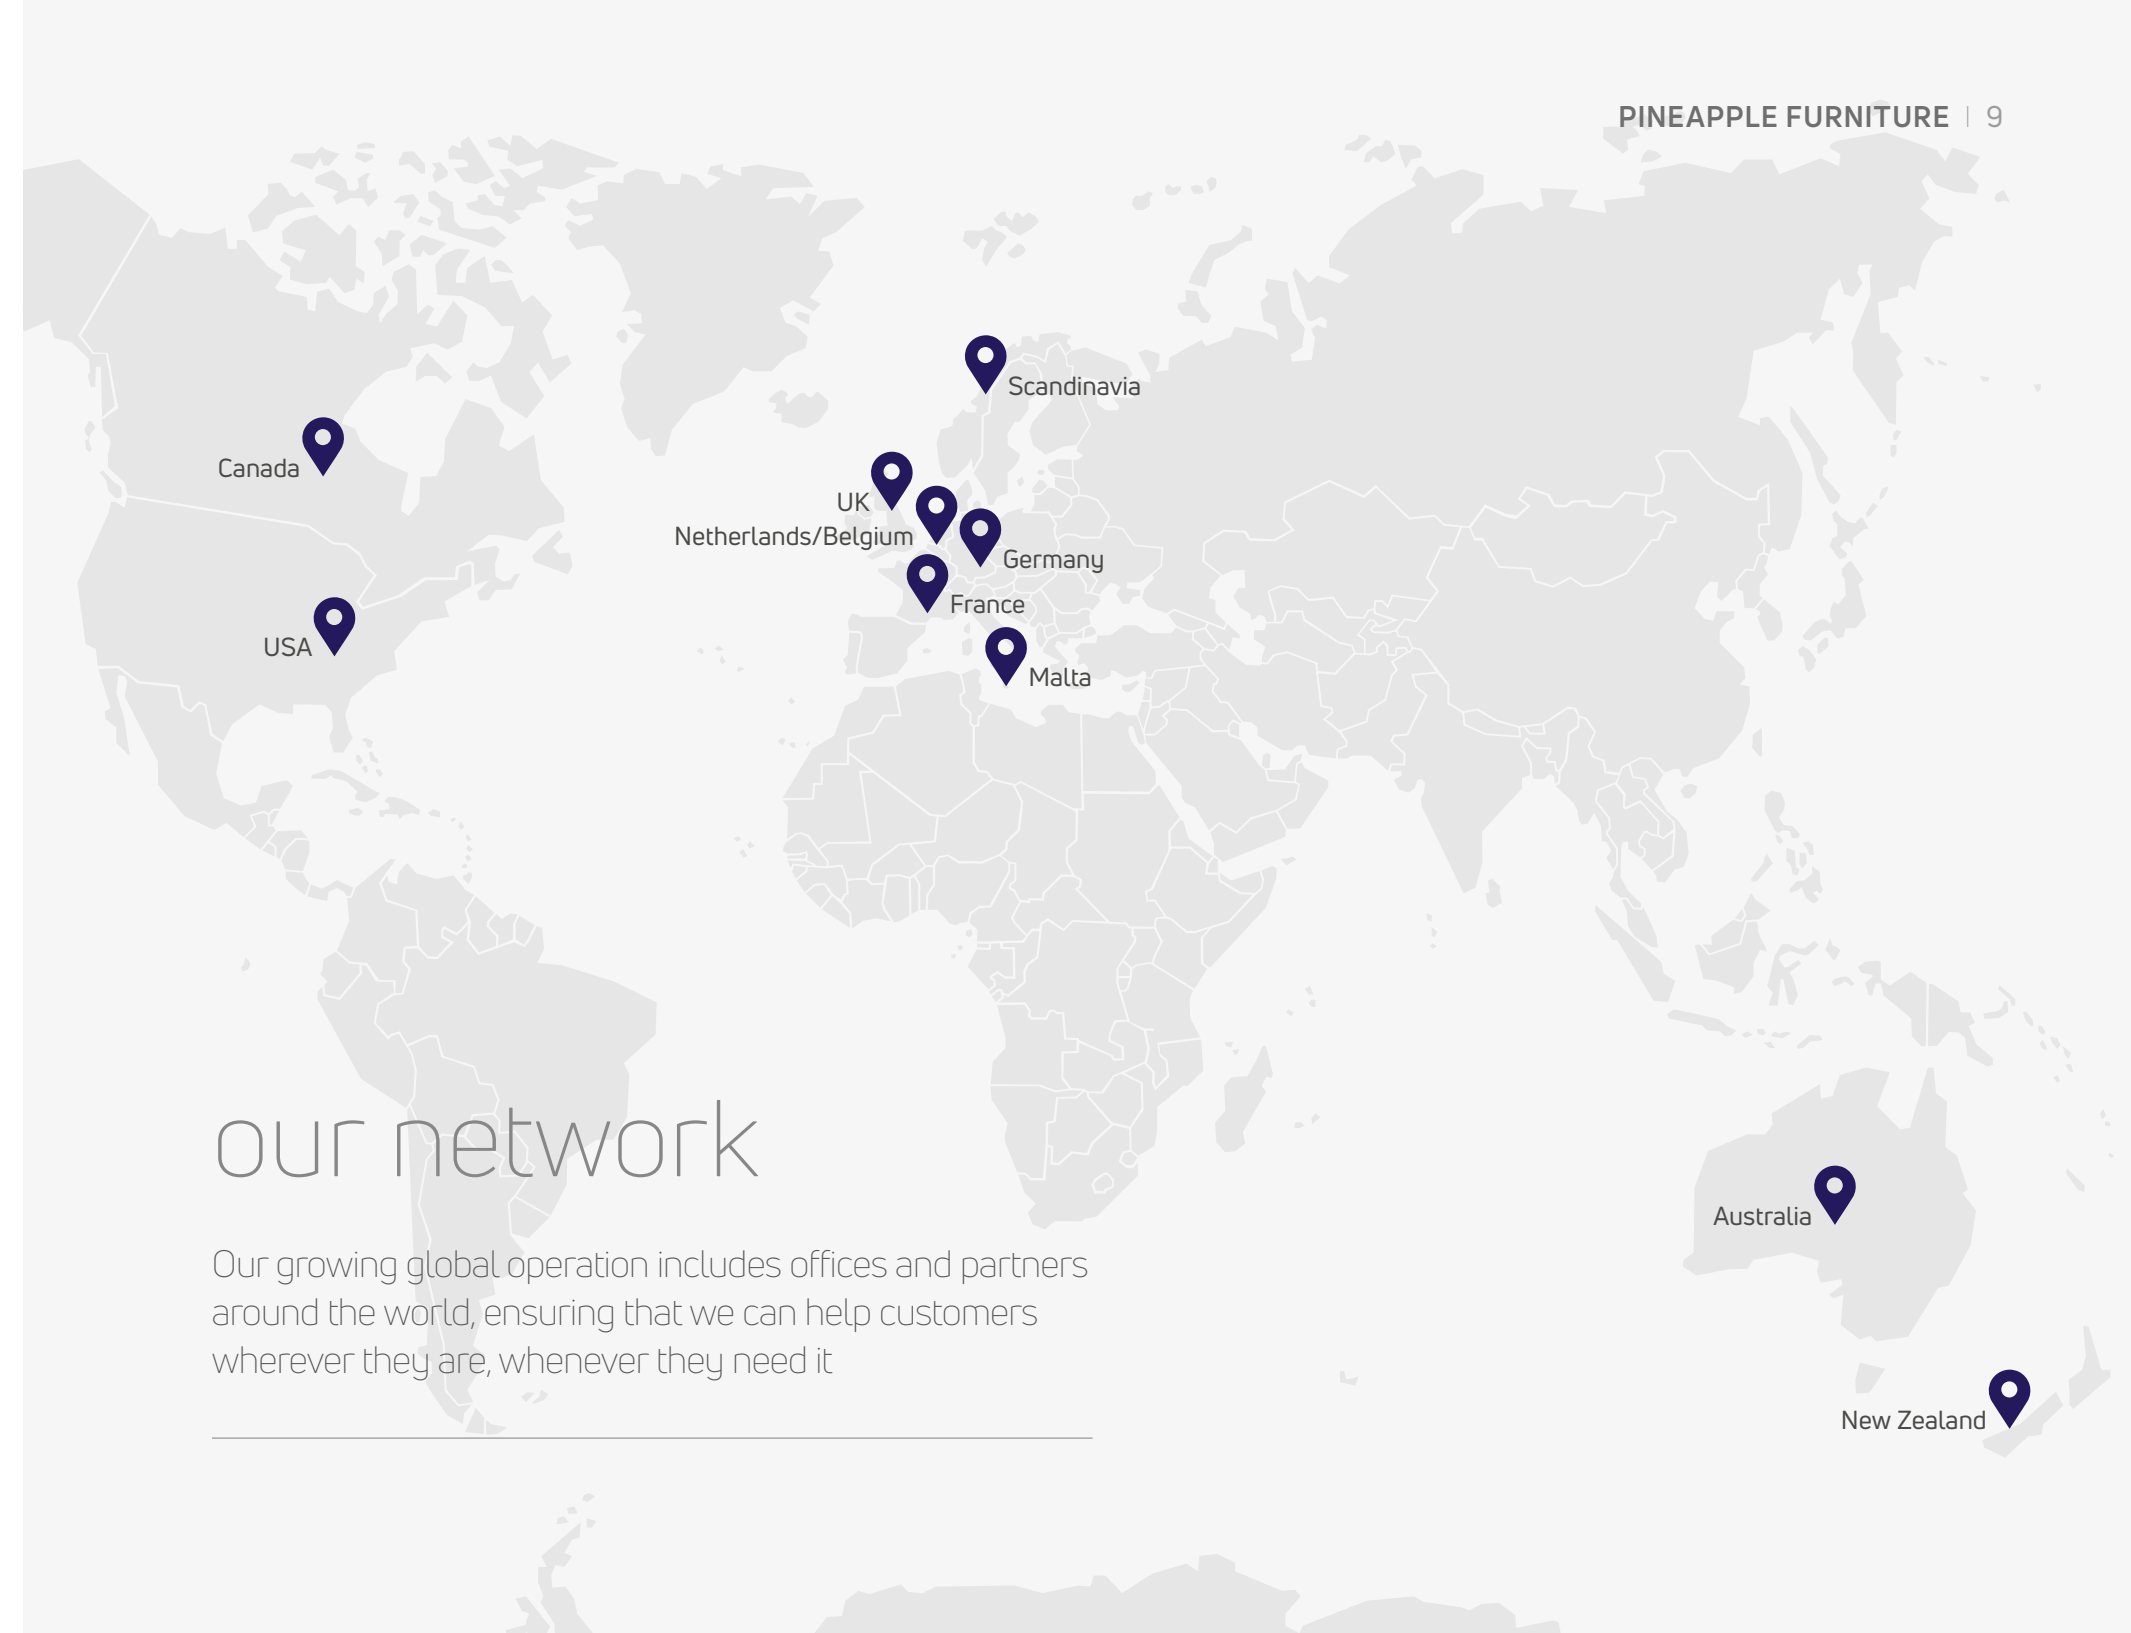

## Strength tested

Our furniture is strength and stability tested to contract level. In this demanding test, seat and back durability is tested at least 100,000 times.

## Responsibly sourced

Our commitment to responsible and ethical environmental practices is demonstrated in our INT-COC-001353 and ISO 9001:2008 awards, and our FSC® Chain of Custody certificate.

## our network

Our growing global operation includes offices and partners around the world, ensuring that we can help customers wherever they are, whenever they need it

# case studies

Here are some real-life projects showing how we help our customers

## behavioral health

Furniture from our Ryno® range is brightening up this new rehabilitation facility. The ward is a calm and modern building designed to minimize stress while maximizing recovery and safety – something which Ryno products are perfectly suited to.

Ryno products were provided in a range of colors, with both bright primary colors and more neutral shades being used indoors and outdoors throughout the facility to provide further safety and a sense of well-being.

“We selected Ryno items as they are stylish and robust...in a wide variety of colors, shapes, and sizes, helping to create a safe and homely environment.”

## correctional

This medium security facility aimed to create an inviting space for visits to take place, the prison selected Ryno® lounge chairs in vibrant lime green coupled with Ryno coffee tables in granite.

Products were heavily weighted, making them difficult pick up to use as a weapon, improving safety for prisoners, visitors and staff. Their one-piece construction also helps to make the rest of the prison safer as, unlike other chairs, they do not provide opportunities for concealing contraband.

The resulting space is colorful and welcoming, providing everyone with a safe environment.

“The Ryno lounge furniture gives the visits hall a fresh and contemporary new look without security being compromised.”

# Ryno®

Our unique Ryno® range has been purposefully created for the rigors of challenging environments, indoors and out

Ryno dining chair (see page 28)

# Ryno® features

Ryno® products are made to the highest standards and designed to withstand the harshest treatment, representing value for money over their lifetime

## Lifetime guarantee

All Ryno products are covered by a lifetime guarantee against manufacturing faults, providing additional peace of mind.

## Strength

Their ultra-strong construction enables Ryno products to withstand extreme treatment, with smooth curves distributing impact evenly throughout the product.

## Heavyweight

Ryno products can be heavily weighted to make them near-impossible to pick up or throw, to create safer environments.

## Fixing

Using our unique hidden fastening methods, Ryno products can be secured to floors and/or walls, deterring weaponization and reducing opportunities for concealment.

Optional ballast is added through the underside of the product, with a safely secured plug preventing removal.

# Ryno® features

Ryno® products have been created with safety in mind, with all their characteristics resulting in safer settings for users and staff

Tested to 21,000 hours of sunlight

## Weatherproof

Ryno products are totally water-resistant and UV-stabilised, making them suitable for indoor and outdoor use in all weather.

## Non-flammable

The entire Ryno range is fire-retardant, adding an extra level of safety essential in challenging environments.

## Hygienic

Ryno products are anti-bacterial and their water-resistant nature means they can easily be wiped clean, ready to be used again.

*Ryno multi-purpose cleaning wipes are available upon request*

# material

Ryno® products are manufactured from a unique polyethylene compound developed to create safe, durable products

## Recyclable

Thanks to the recyclable nature of polyethylene, Ryno products can be milled back into powder form and re-molded to create new products.

A UV-stabilizing additive protects Ryno products against the damaging effects of the sun's rays, limiting color fading and brittleness when used for extended periods outdoors.

Ryno products are UL94 HB compliant due to the inherently flame-retardant properties of our polymer.

The addition of Silver Oxide inhibits bacterial growth, preserving high levels of hygiene and infection control throughout all Ryno products.

# color

Our Ryno palette takes inspiration from positive lifestyle, with the desire to act as supportive and nurturing spaces for those who use them

## Collaboration

Color plays a key role in humanizing spaces, so we enlisted the help of one of the world's leading design consultancies

seymourpowell

# tub chair

This tub chair was created to solve issues of comfort and safety in challenging environments

LIFETIME  
GUARANTEE

## Support

Wrap around back provides support and helps those who have difficulty standing up

# club chair

The club chair is our new reduced ligature chair designed to make unsupervised areas in demanding spaces safer for everyone

LIFETIME  
GUARANTEE

## Reduced ligature

Its sloping arms and curved lines have been carefully considered to reduce ligature risks

# loung chair

The lounge chair incorporates multiple safety features in a laid back style so is great for demanding settings requiring calm

LIFETIME  
GUARANTEE

Tested  
to hold up to  
**700 lbs**  
(static weight)

## De-escalation

Recessed footwell and reclined seating position promotes relaxation and aids staff in safe de-escalation

# coffee table

Our coffee table is a sleek yet stable option that is easy to wipe clean and removes issues of concealment

LIFETIME  
GUARANTEE

## Concealment

Ryno® uses a one-piece construction to remove concealment points for stashing contraband

# dining chair

These chairs have an upright seating position well suited to dining but also in other areas where weaponization is a concern

LIFETIME  
GUARANTEE

## Weaponization

Smooth finish and curved shapes make Ryno® difficult to pick up or use as a weapon

# children's chair

Just like its larger sibling, this chair offers key features for challenging environments, but has been designed for children

## Comfort

Designed to meet posture standards for children between 52"-61" to ensure maximum comfort and support

Children's tables available on page 48

# dining table

This dining range has table options for indoors and out, recognizing the need to reduce conflict or violence in certain areas

● molded top color    ● ● ● ● ● laminate top colors

Rotationally molded polyethylene top  
*suitable for indoor & outdoor use*

Laminate coated top with gray polyurethane edging  
*suitable for indoor use only*

## Violence

Cruciform base designed to deter violence as well as reducing possibilities for passing contraband

# stool

The stool is one of the latest members of the Ryno® family, introducing a new option for indoor and outdoor spaces

LIFETIME  
GUARANTEE

## Water-resistance

Created with a curved seat to allow water to run off and prevent puddles from forming

# bench

The bench, like the stool, is a new Ryno® product, further enhancing our offering of safe indoor/outdoor furniture

LIFETIME  
GUARANTEE

## Safety

Rounded design used to remove any sharp edges as well as give an organic look and feel

# bedroom

Reduced-ligature bedroom furniture specifically designed to address issues experienced in challenging environments

LIFETIME  
GUARANTEE

Accompanying mattress for Ryno bed available, see page 105

## Anti-stash

Infill panel available to remove spaces for hiding contraband between bed and wall

# bedroom

Fitted bedroom furniture created to address the challenges found in challenging environments

LIFETIME  
GUARANTEE

## Reduced-ligature

Rounded corners, no doors or drawers and other innovative solutions to minimize ligature risks

# statement of line

# tables & seating

We have an extensive collection of multi-purpose tables and seating suitable for dining areas and more informal settings

Touch chairs (see page 52)

# cumulus plus

Our heavy-duty table range, available in multiple sizes, combines a steel base plate and thick pedestal for strength and stability

● ○ table top colors

**Top**  
High-pressure laminate top with rounded PVC edging for durability

**Base**  
Heavyweight solid steel base plate and pedestal for safety and stability

# children's table

Based on one of our most popular ranges; Cumulus Plus. Just like its older siblings, this range offers key features, but for children

● ○ table top colors

Children's chairs available on 30

# rock

Combining strength and beauty, Rock is an elegant but robust range of well-designed tables and chairs

● frame finish ○ top finish

More than double the pass mark for strength & stability testing at 500,000 cycles

## Frame

Key to the range's strength are the interconnections which join each leg together, creating a rigid solid birch frame

## Top

Smooth chamfered edge protects top surface from damage

Other sizes to choose from see page 60 for all options

# touch

This multi-purpose stackable seating is easy to move, clean and store, with a solid chrome rod frame and hardened shell for strength

## Frame

Solid frame (not hollow piping) used for added strength and stability

## Stacking & Storing

Slot at the back for easy lifting and stacking, with trolley available to hold up to 40 chairs for easy storage

# vee

Stackable chairs combining wood and upholstery to soften a space, all with a chunky one-piece frame to ensure strength

Hundreds of fabrics to choose from  
see website for all options

## Hygiene

This 'Hijena' model also has a gap between the seat and back to aid thorough cleaning

## Frame

Solid one-piece wooden frame ensures stability and strength throughout the chair

# contessa

These foam shapes are easy to move and, with eight shapes, there are endless combinations to configure

Hundreds of fabrics to choose from  
see website for all options

Flame-retardant, upholstered exterior gives the final look & protection

Soft, fire-resistant CMHR foam gives shape & comfort

## Seams

Zip heads removed and oversewn to deter tampering

# reinforced seating

---

We understand that no two requirements are the same, so we create seating reinforced to different levels to suit all needs

Domus Plus tub chair & 2-seater (see page 68)

# zen plus

As comfortable as it is stylish with its design intended to deter rapid standing motion, encouraging a calmer environment

 Hundreds of fabrics to choose from  
see website for all options

Available in dual fabric

## Comfort

Smooth, reclined shape reduces pressure points and provides exceptional comfort

# skye plus

This seating combines strength with a modern look, using slim arms to create comfort suitable for areas with limited space

Hundreds of fabrics to choose from  
see website for all options

## Arms

Slim arms and tapered base give a streamlined look, allowing easier sitting and standing

# domus plus

In addition to its strong, heavy frame, Domus' curved back makes it supportive with the wood finish adding an organic feel

Hundreds of fabrics to choose from  
see website for all options

## Style

All items are available with or without slots, and with removable seat cushions

*Domus model also available without concealed base*

Slots are blocked to remove possibility of concealment points

# ohio plus

Great modular seating usable on their own or in multiples with ski feet helping reconfigure spaces as your needs evolve

 Hundreds of fabrics to choose from  
see website for all options

## Skis

As well as adding extra stability, the ski feet help with maneuverability when reconfiguring your chosen layout

# snug plus

Modular versatility combined with sumptuous comfort to help you create an arrangement to best suit your space

 Hundreds of fabrics to choose from  
see website for all options

## Low back

Contemporary back design helps with de-escalation as well as creating a low profile to provide clearer sightlines for staff

# Orr

Our reinforced Orr seating is easy to clean as it is raised from the floor and has removable cushions making it perfect for healthcare environments

 Hundreds of fabrics to choose from  
see website for all options

## Easy to clean

Removable seat and back cushions aid easy and thorough cleaning

## Reinforced

This range is available in three levels of reinforcement (see page 83)

# magna

This range can incorporate zero-depth seams with its fixed cushions to remove hiding places for contraband

Hundreds of fabrics to choose from  
see website for all options

## Reinforced

This range is available in three levels of reinforcement (see page 83)

## Seams

'Anti-stash' seams with zero depth are available as an option to remove opportunity for concealing banned items or medication

# adaptability

Our reinforced seating ranges can be adapted to ensure they are a suitable option for any setting

## Plinth base

Our Magna, Skye Plus and Ohio Plus ranges come with the option of a plinth base to prevent dust and dirt from gathering underneath.

## Modular seating

Our Ohio Plus and Snug Plus ranges are a flexible way to ensure that your seating can be reconfigured at any time to suit the ever-changing needs of your patients.

# what makes it *Plus*?

Plus ranges are our safest and most secure seating but we can also offer lower spec versions for less challenging environments

## Plus benefits

Our Plus models are designed with optimum safety and durability in mind. But what differentiates them from our standard versions?

### Enclosed Base

The addition of an enclosed base removes concealment points

### No Staples or Piping

Using no visible staples or piping further reduces risk of self-harm or ligature

### Security Screws

Security screws, where applicable, minimize potential for tampering

# levels of reinforcement

Our sofa ranges come in a variety of shapes, sizes and fabric choices but it is their reinforcement that really do set them apart. Our Orr and Magne ranges even come in three different levels to choose from

### Level 2

More resistant seat platform for demanding areas

Webbed back

Reinforced seat adds strength & durability

Cloth underside

### Level 3

Extra-strong seat & back platform for challenging environments

Reinforced back adds strength & durability

Reinforced seat adds strength & durability

Cloth underside

### Level 4

Extra-strong seat & back platform with reinforced base for extra challenging environments

Reinforced back adds strength & durability

Reinforced seat adds strength & durability

Reinforced underside adds strength & reduces concealment opportunities

# bedroom

Our bedroom ranges all include a host of inbuilt features that ensure safety in areas where supervision isn't always possible

Ryno bedroom (see pages 38-41)

# acumen

Acumen furniture has been designed to solve many problems; from reduced-ligature features to minimizing opportunities for concealment

Well-thought out, purposeful solutions to safety issues surrounding furniture

# reduced-ligature solutions

We have created our bedroom furniture to introduce reduced-ligature solutions using various features to reduce the potential for self harm in challenging environments

## Shelving

Half-depth shelf with a groove instead of hanging rails, as well as stepped shelving to deter climbing

## Doors

Curved door tops eradicate a place to wrap a ligature

## Hinges

Piano hinges are continuous so there is nowhere to tie a ligature

# acumen white

The combination of gloss white doors and drawers with a thick walnut shell give Acumen White style as well as safety

○ fronts

● carcass

# acumen gray

Acumen gray is the latest sumptuous finish option for our unique and popular Acumen bedroom furniture

fronts

carcase

## acumen open

Acumen Open removes doors, drawers and hinges from the range to provide facilities with total peace of mind

# sovie

This bed range has been designed to provide an ideal safety solution for beds in challenging environments

Strong & durable beds for all challenging environments

## design

The way we have designed our beds make them an innovative safety solution, incorporating strength and other key features such as water-resistance and 'anti-stash'

### Kydex

Sovie beds are coated in Kydex – an extremely durable, water-resistant plastic which withstands impact  
*(available in three finishes)*

### Strength

All Sovie beds incorporate internal support ribs for extra strength and durability

### Water-resistant

Water-resistant tray with anti-kick lip

### Floor-fixed

Beds can be floor fixed to ensure they cannot be moved

### Anti-stash

Available with filler panel to remove stash points

# sovie

Our innovative bed range has immense internal strength combined with a durable, water-resistant outer shell

MOQs apply

## Access

Flared design gives improved staff access by allowing them to be closer to patients

# scorpio

The tri-fold design of Scorpio collapsible mattresses prevents obscuring of vision panels as they 'collapse' when stood on end

## Versatile

Versatile design serves multiple functions including making it usable for soft seating

## Cover

Anti-vandal, polyurethane cover with internal double-stitched, heat-welded seams for maximum durability and water resistance

## Foam

Fire-resistant, CMHR (combustion modified high resilience) foam used for optimum safety

# taurus

Our hygienic heavy-duty mattresses use welded seams to ensure that they cannot be vandalized and are fully waterproof

## Cover

Fire-retardant, 'anti-vandal' (rip stop) vinyl with radio-frequency welded seams provides a tear-proof mattress with an impervious seal

## Foam

Flame-retardant, multi-density foam allows you to choose between firm or soft sides for ultimate comfort

# alpine

These anti-microbial mattresses incorporate multi-density foam with welded seams to ensure comfort and safety

## Foam

Flame-retardant, multi-density foam allows you to choose between firm or soft sides for ultimate comfort

## Cover

Fire-retardant, Thermal Polyurethane Nylon (TPU) cover with radio-frequency welded seams gives strong seams and high resistance to chemicals
