

Pacific Floorcare

Environment of Care Solutions for the U.S. Department of Veterans Affairs

American-Made Auto Scrubbers Engineered for Healthcare Excellence

Presented by
Environmental Care Solutions, LLC
Authorized Representative for Pacific Floorcare

Executive Summary

Maintaining a clean, safe, and compliant healthcare environment is essential to the Department of Veterans Affairs' mission of providing exceptional care to America's Veterans. Environmental Management Services professionals require equipment that delivers dependable performance, supports infection prevention, minimizes downtime, and provides long-term value.

For nearly eighty years, Pacific Floorcare has manufactured commercial floor care equipment in the United States. Built in Muskegon, Michigan, Pacific's S-Series Auto Scrubbers combine American manufacturing, proven reliability, and healthcare-focused engineering to help VA medical centers maintain the highest standards of environmental care.

Pacific Floorcare provides more than cleaning equipment—it delivers a long-term solution designed to support operational excellence throughout the VA healthcare system.

Built for the VA Environment of Care

Healthcare facilities demand equipment that performs consistently under continuous daily use. Pacific Floorcare auto scrubbers are specifically engineered to support the operational requirements of hospitals, outpatient clinics, and medical campuses.

Pacific equipment helps facilities achieve:

- Reliable daily cleaning performance
- Low-noise operation for occupied patient areas
- Reduced maintenance requirements
- Increased equipment uptime

- Simplified operator training
- Long equipment life
- Lower total cost of ownership

Every feature has been designed to support the demanding Environment of Care standards expected throughout VA medical facilities.

Featured Equipment

Pacific S-28 Disk Auto Scrubber

Model 875410

Designed for larger healthcare environments requiring maximum productivity.

Key Features

- 28-inch cleaning path
- Adjustable brush pressure: 70, 110, and 150 pounds
- Self-adjusting heavy-duty squeegee
- 250 AH AGM maintenance-free batteries
- Integrated onboard charger
- Automatic pad installation and removal
- Quiet 65 dBA operation

Ideal for corridors, surgical support areas, lobbies, clinics, and other high-traffic environments.

Pacific S-20 Disk Auto Scrubber

Model 855404

Engineered for maneuverability while maintaining exceptional cleaning performance.

Key Features

- 20-inch cleaning path
- Adjustable brush pressure: 60 and 90 pounds
- Self-adjusting heavy-duty squeegee
- 140 AH AGM maintenance-free batteries
- Integrated onboard charger

- Automatic pad installation and removal
- Quiet 63 dBA operation

Ideal for patient rooms, specialty clinics, nursing stations, and confined healthcare environments.

Why Pacific Floorcare

American Manufacturing

Pacific Floorcare has proudly manufactured commercial floor care equipment in Muskegon, Michigan since 1946. More than 75 percent of product components are sourced from North America, supporting domestic manufacturing and federal procurement requirements.

Industry-Leading Warranty Protection

Pacific demonstrates confidence in its products through one of the industry's strongest warranty programs.

Coverage Warranty

Tanks	10 Years
Parts	5 Years
Labor	3 Years

This comprehensive coverage helps reduce lifecycle costs while protecting the Department of Veterans Affairs' investment.

Quality Without Compromise

Every Pacific auto scrubber undergoes:

- 100% factory wet testing
- Comprehensive 40-point quality inspection
- Performance verification before shipment

Each machine is tested before delivery, providing confidence that equipment is ready for immediate operation upon arrival.

Responsive Domestic Supply Chain

Pacific's investment in domestic manufacturing enables most scrubber orders to ship within three business days, helping facilities maintain operational continuity while reducing procurement delays.

Benefits to VA Medical Centers

Pacific Floorcare equipment helps support the Department of Veterans Affairs by:

- Promoting a safe, clean patient environment
- Supporting Environment of Care initiatives
- Improving operational efficiency
- Reducing equipment downtime
- Lowering maintenance and lifecycle costs
- Enhancing staff productivity
- Delivering dependable long-term performance

These benefits allow Environmental Management Services teams to focus on what matters most, providing exceptional support for Veteran care.

Environmental Care Solutions, LLC

Environmental Care Solutions LLC is proud to serve as an **authorized representative for Pacific Floorcare**.

As a **Service-Disabled Veteran-Owned Small Business (SDVOSB)**, we understand the mission of the Department of Veterans Affairs and the importance of delivering dependable products backed by responsive service.

Our commitment extends beyond equipment sales. We provide knowledgeable support throughout the procurement process, product implementation, and ongoing customer service to help VA facilities achieve long-term operational success.

Our Commitment

Environmental Care Solutions, LLC and Pacific Floorcare share a common commitment to quality, reliability, and service.

Together, we provide American-manufactured floor care solutions that help the Department of Veterans Affairs maintain clean, safe, and efficient healthcare environments while maximizing the value of every procurement investment.

We appreciate the opportunity to support the VA's mission of serving those who have served our nation.
